Emergency Medicine Board Review is a comprehensive guide for preparing for the American Board of Emergency Medicine (ABEM) certification or ConCert recertification exam, and for residents preparing for in-training examinations in Emergency Medicine. The text consists of over 900 multiple-choice questions, organized into 20 chapters covering topics such as gastrointestinal, cardiovascular, and nervous system emergencies, as well as various disorders. Chapters include questions, answers with detailed explanations, and "test taking tips" to help better navigate a standardized exam. Questions are written in a case-based format that emulates the ABEM and ConCert exams, and are supplemented by numerous figures, tables, and boxes.

This thoroughly revised and expanded fourth edition of the successful Ethical and Social Issues in the Information Age provides an up-to-date examination of the ethical, social, and policy challenges stemming from the emergence of cyberspace, the convergence of telecommunication and computing technologies, and the miniaturization of computing, telecommunication, and information-enabling devices. This accessible textbook/reference broadly surveys thought-provoking questions about the impact of these new technologies, with particular emphasis on the rapid growth of a multitude of computer networks, including the Internet. It assumes only a very modest familiarity with basic computer literacy. Students at all levels who need to learn about computer ethics, the legal aspects of computing, network security, computer crime investigation, and biometrics will find this well-documented work an invaluable resource. The book is also highly useful for practitioners needing such insights for their work.
