Business Driven Information Systems 2nd edition takes a contemporary approach by discussing how business initiatives should ultimately drive technology choices.This edition offers an impressive variety of new case studies - real world examples of MIS in action- including coverage of Wikileaks, Myki and Apple innovations. Integrated coverage of mobile technologies, cloud computing and social networking reflects the emerging business environments that await today's business graduate.Business Driven Information Systems provides the foundation that will enable students to achieve excellence in business, whether they major in operations management, manufacturing, sales, marketing, finance, human resources, accounting, or virtually any other business discipline.

Business Driven Information Systems, 4e discusses various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. This updated edition provides the foundation that will enable students to achieve excellence in business through its updated case studies, closing cases, technology plug-ins, expanded IT topics, and new project management content. Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point of strength for an organization, and McGraw-Hill's online learning and assessment solution, Connect MIS, helps students apply this knowledge. For more information on Baltzan, Business Driven Information Systems, 4e, please visit: www.mhhe.com/baltzan4e For more information on Connect, please visit: connect.mcgraw-hill.com For more information on SIMnet for Office 2013, please visit www.simnetkeepsimple.com

BDT takes a business-first approach, improving students' perception of the value of IS within the business discipline. This perspective allows instructors to more easily demonstrate how technology and systems support business performance and growth. The adaptive chapter/plugin-in organization enables the instructor to adjust content according to their business or technical preferences.

The seventh edition of Business Driven Information Systems discusses various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point of strength for an organization. The new edition of Business Driven Information Systems is state of the art in its discussions, presents concepts in an easy-to-understand format, and allows students to be active participants in learning. The dynamic nature of information technology requires all students/more specifically, business students/ to be aware of both current and emerging technologies. Students are facing complex subjects and need a clear, concise explanation to be able to understand and use the concepts throughout their careers. By engaging students with numerous case studies, exercises, projects, and questions that enforce concepts, Business Driven Information Systems creates a unique learning experience for both faculty and students.

Unlike any other MIS textbook franchise, our Baltzan texts (Business Driven Technology, Business Driven Information Systems and M: Information Systems) discuss various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion in these texts first addresses the business needs and then addresses the technology that supports those needs. Business Driven Technology 5e offers you the flexibility to customize your course according to your needs and the needs of your students by covering only essential concepts and topics in the five core units, while providing additional in-depth coverage in the business and technology plug-ins. This text contains 20 chapters, 20 business plug-ins, and 12 technology plug-ins offering you the ultimate flexibility in tailoring content to the exact needs of your MIS or IT course. The unique construction of this text allows you to cover essential concepts and topics in the five core units while providing you with the ability to customize a course and explore certain topics in greater detail with the business and technology plug-ins. Plug-ins are fully developed modules of text that include student learning outcomes, case studies, business vignettes, and end-of-chapter material such as key terms, individual and group questions and projects, and case study exercises. We realize that instructors today require the ability to cover a blended mix of topics in their courses. While some instructors like to focus on networks and infrastructure throughout their course, others choose to focus on ethics and security. Business Driven Technology was developed to easily adapt to your needs. Each chapter and plug-in is independent so you can: *Cover any or all of the chapters as they suit your purpose. *Cover any or all of the business plug-ins as they suit your purpose. *Cover any or all of the technology plug-ins as they suit your purpose. *Cover the plug-ins in any order you wish. Baltzan, Business Driven Technology 5e: Engaging * Flexible * 100% Supported

Business Driven Information Systems discusses various business initiatives first and how technology supports those initiatives second. The premise for this contemporary approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. This text provides the foundation that will enable students to achieve excellence in business, whether they major in operations management, manufacturing, sales, marketing, finance, human resources, accounting, or virtually any other business discipline. Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point of strength for an organisation. BDIS 1e won the Australian Publishing Association award for Best Tertiary Teaching & Learning Package (Adaptation) of 2010. It has been described as "valuable student resource", which presents a "refreshing perspective" in which IT is "neatly and comprehensively integrated" throughout the textbook.

"Business Driven Information Systems discusses various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. This text provides the foundation that will enable students to achieve excellence in business, whether they major in operations management, manufacturing, sales, marketing, finance, human resources, accounting, or virtually any other business discipline.
