Citations are derived from MEDLARS tapes for Index Medicus of corresponding date. Arrangement by 2 sections, i.e., Selected subject headings, and Diseases, organisms, vaccines. No author index.

The celebrity cosmetic surgery blogger describes his misfit youth as a nerdy Korean-American student with a misshapen jaw whose life-changing surgery led him to become a successful plastic surgeon.

Advanced Surgical Recall is a study aid for students and residents who have progressed past their introductory experiences in the discipline of surgery. In addition to providing in-depth coverage of the basic sciences and advanced and subspecialty surgical procedures, this edition is thoroughly illustrated with detailed images of important anatomic landmarks and appropriate surgical techniques. It is a useful resource for studying on rounds, the ABSITE exam and surgery boards. It can also serve as a source of questions for teachers of surgery, particularly for the activity of teaching rounds. The book is written in the popular rapid-fire question and answer format of the Recall series.

The healthcare system has turned the art and science of healing into big business, and many doctors can no longer devote the greater part of their working hours directly to patient care, faced as they are with reams of insurance- and legal-related paperwork, the constant threat of malpractice, and a burgeoning patient population. Despite this, some physicians still enter the profession with deeply held convictions, hopes, and idealism, and go on to excel not just as medical doctors, but as human beings. Characteristics of Compassion: Portraits of Exemplary Physicians is book that profiles the recipients American Medical Association Foundation Pride in the Professions Award. It gives insight into what sets these outstanding doctors apart from their peers to inspire medical professionals and their patients. It provides first hand insights and identifies a rich description of traits/motivations shared by today's leading physicians.
