"Lead like the Best" is a revolutionary book filled with fundamental principles and tools to impact individuals who are serious about enhancing their leadership abilities. The term leadership has become diluted and overused through the years, but this book aims to bring true understanding and integrity

back to this undervalued position. Leadership expert, Alford D. Simon, describes in detail the specific characteristics of a leader, discusses and personal development, the purpose and importance of being a leader, as well as providing exceptional strategies to challenge you to raise your standards and improve your leadership performance. Throughout there are thought-provoking questions to help you reflect on and assess your leadership experience. "Lead like the Best" will teach you how to triumph over personal barriers to function in a leadership position and achieve sustained results. This powerful, strategic guide was written to empower, inspire, and guide business and ministry leaders, global influencers, educational scholars, corporate officers, government officials and people who are looking for the necessary tools to climb the mountain of leadership and achieve success by leading like the best.

Are there any constraints known that bear on the ability to perform Agile Management for Software Engineering work? How is the team addressing them? In a project to restructure Agile Management for Software Engineering outcomes, which stakeholders would you involve? How much are sponsors, customers, partners, stakeholders involved in Agile Management for Software Engineering? In other words, what are the risks, if Agile Management for Software Engineering does not deliver successfully? How does the organization define, manage, and improve its Agile Management for Software Engineering processes? What are the business goals Agile Management for Software Engineering is aiming to achieve? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role... In EVERY company, organization and department. Unless you are talking a one-time, single-use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different way to look at it?' For more than twenty years, The Art of Service's Self-Assessments empower people who can do just that - whether their title is marketer, entrepreneur, manager, salesperson, consultant, business process manager, executive assistant, IT Manager, CxO etc... - they are the people who rule the future. They are people who watch the process as it happens, and ask the right questions to make the process work better. This book is for managers, advisors, consultants, specialists, professionals and anyone interested in Agile Management for Software Engineering assessment. All the tools you need to an in-depth Agile Management for Software Engineering Self-Assessment. Featuring 616 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which Agile Management for Software Engineering improvements can be made. In using the questions you will be better able to: - diagnose Agile Management for Software Engineering projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices - implement evidence-based best practice strategies aligned with overall goals - integrate recent advances in Agile Management for Software Engineering and process design strategies into practice according to best practice guidelines Using a Self-Assessment tool known as the Agile Management for Software Engineering Scorecard, you will develop a clear picture of which Agile Management for Software Engineering areas need attention. Included with your purchase of the book is the Agile Management for Software Engineering Self-Assessment downloadable resource, which contains all questions and Self-Assessment areas of this book in a ready to use Excel dashboard, including the self-assessment, graphic insights, and project planning automation - all with examples to get you started with the assessment right away. Access instructions can be found in the book. You are free to use the Self-Assessment contents in your presentations and materials for customers without asking us - we are here to help.

Millions of Americans are embroiled in the penal system - and tens of millions more are at risk of being sent to prison for crimes large and small. "Stay Out Of Prison: A Practical Guide to Avoiding Incarceration" is an in-depth look at criminal thinking and criminal behavior, the legal system, how crimes are investigated and prosecuted, and how you can minimize your chances of being imprisoned. An excellent book both for those who may be running the risk of incarceration, as well as those who worry about their family members or friends.

A tool to help gain momentum and clarity in the sometimes-confusing maze called life and work. The book covers subjects as diverse as parenting, finances, relationships, career, and more.
