Hydraulic Level Five (n.): A whitewater rapid classification indicating large waves, continuous rapids, large rocks and hazards, potential large drops, where precise maneuvering is required. Often characterized by "must make" moves, i.e. failure to execute a specific maneuver at a specific point may result in serious injury or death. Kaye is an extreme sports addict with a kind heart and an axe to grind with her childhood sweetheart and ex-husband, renowned writer Samuel Caulfield Cabral. While Samuel enjoys a celebrity life in New York, Kaye remains in their hometown of Lyons, Colorado, running her PR agency and chatting daily with Samuel's family, the beloved Cabrals-first-generation Mexican-Americans who have embraced Kaye as their own. But when Samuel returns home for his sister's wedding with a new love interest, stunning editor Caroline Ortega, the gloves are stripped off. Kaye is determined to unearth the reasons behind the death of their marriage and why two people who lived to love each other were driven apart, all leading to startling revelations about Samuel, about life, and about herself. She soon realizes that maneuvering the tumultuous waters of her relationship with Samuel will prove as dangerous as any outdoor adventure she might attempt...at least where her heart is concerned

Only a few months after embracing her magical powers, defeating a dark witch at her high school, and banishing a faerie prince back to his realm, sixteen-year-old Madison Riley is back in book three of the Embrace series—and doing the bidding of a demon. She has no choice but to do so if she wants him to honor the deal they made at his crossroads territory to save the life of someone she loves. Twenty years of service to a creature of hell is a big price, but it sure beats the alternative: selling her soul. But life gets complicated when you're the beck-and-call witch of a crossroad demon. Caden, the demon she serves, wants to become master of Death Himself, and he has the means to do it as long as Madison helps him find all the pieces of an enchanted "binding" necklace. It's up to Madison and her coven to foil his plans, but Caden's intentions aren't entirely evil—and the kisses he seals his deals with aren't too bad either. As Caden's motives test Madison's trust, his shameful flirting tries her boyfriend Isaac's patience. But being caught in a love triangle with two supernatural hotties is perhaps the least of her concerns when the coven's interference in Caden's plot might just cost Madison her life and unleash hell on earth.

"Your family is the most important part of your life. Your families are the people you love, and love is what separates us from scoundrels and criminals. It maintains order. Your parents, your sibling, and your Partner, are the ones you love. There should never, ever, be anyone else who comes close to that bond. You have only one best friend, and that is the person you'll be marrying someday. We must learn to differentiate the relationships in our lives: the people we love, and the ones we don't. It's inappropriate, it's foolish, and it's forbidden to think otherwise." Trace Bailey's mouth is her worst enemy – somehow it always gets her in trouble. Luckily, she has a

partner in crime – her best friend and neighbor since age seven, Piren Allston. He can't get enough of her crazy sense of humor, and she loves that he's always up for another adventure. They can't be friends, though, not in their world. Trace and Piren were Assigned to other people at the age of six, and they're supposed to marry their Partners when they turn twenty-four. Failure to comply leads to Banishment, a fate worse than death. Worse still is the growing realization that their bond is stronger than just friendship. In a world without freedom, there are still choices to be made. Following their hearts means losing their family, but following the law means losing each other. Forever.

Capricious and free-spirited, Mina Tepes is forever trying to intervene. Some would say she interferes. Her attempt to save a friend worsens a war already waging between her people, the Darks, and their reviled overlords, the Mages. Desperate, she turns to the man who saved her life as child—an enemy Mage named Xander. As part of the ruling class, Xander Fjordson should never have taken notice of Mina, but even as boy, one look into her large dark eyes and he was lost. As an adult, involvement with her has ripped his world to shreds. Though the war she unintentionally instigated has made them enemies, when she comes to him bleeding and injured, he is unable to say no. He puts at risk what is left of his status and his family as he follows her, knowing in the end he'll have to betray her. Together Xander and Mina begin to unravel terrible secrets as the war escalates. Soon Xander must choose: save his family or the woman who's come to mean more to him than his own life.

Serena Stark is a farmer's daughter who has never been past the limits of her small town, never seen or done anything remarkable in her life. After the death of her older brother Caleb, she feels as though she is beginning to disappear completely. When Caleb's best friend Sam, who she's secretly loved from afar for years, joins up to fight for the Union in the war, Serena can't bear the thought of losing him as well. One night, in a desperate and rash decision, Serena cuts her hair, dresses in Caleb's old clothes, and strikes off to join up too. Now she is Frank Stark fighting with the Army of the Potomac as it heads for Confederate territory. While she must face peril on the battlefield and the discomforts of army life, her greatest fear is discovery.

Enter Midvalen, a world of kings and kingdoms, princes and pretenders. In the Kingdom of Miranov, Taya seems to have it all: she owns her own store, she's engaged to be married to a handsome man, and she's a success. But the truth is more complicated than anyone could guess. Her engagement is a sham, an agreement of convenience that she made with Darren so she can own land and he can get his mother off his back. She thinks things have become complicated when she realizes that she's fallen in love with him, something she never planned to do. But what's worse is discovering that her simple sailor boy is actually the crown prince of neighboring Sephria, and his usurping Uncle is trying to kill him. When Darren shows up at her door, bleeding and fleeing assassins, Taya is drawn into a complicated mess of politics, fighting, and broken hearts. Her allegiances will be questioned, her love will find a new course, and she'll do it all while trying to stay alive, save the day, and guard her heart.

In Fix You, movie star Andrew Pettigrew (Andy to his fans, Andrew to his friends) somehow found the level-headed love he was looking for in young widow and “regular girl” Kelly Reynolds. Now, as they work to mesh their growing relationship with his gold-statue ambitions, things go a bit sideways, in true Hollywood fashion. Though they're still wonderfully in love, it's challenge enough for Andrew and Kelly to decipher what it means to be a family—and a growing family at that—between takes on set. But Andrew also brings history with a temperamental co-star, assorted paparazzi, and someone out there who has serious, perhaps obsessive, issues with him into the mix. Suddenly the Reynolds-Pettigrew clan must fight not just to stay together, but to stay safe. In Trouble Me, the sequel to Fix You and third novel from Rita finalist Beck Anderson, Kelly and Andrew struggle to stay sane within their whirlwind life. It's a life that's equal parts amazing and amusing, less glamorous than you might expect, and spiked with very real fears no amount of stardom can overcome. Will Andrew and Kelly stay strong at the broken places or be torn apart?

Scour and Erosion includes four keynote lectures from world leading researchers cutting across the themes of scour and erosion, together with 132 peer-reviewed papers from 34 countries, covering the principal themes of: - internal erosion - sediment transport - grain scale to continuum scale - advanced numerical modelling of scour and erosion - terrestrial scour and erosion- river and estuarine erosion including scour around structures, and - management of scour/erosion and sediment, including hazard management and sedimentation in dams and reservoirs. Scour and Erosion is ideal for researchers and industry working at the forefront of scour and erosion, and has applications in both the freshwater and marine environments.

Life and love are more brutal than the crackled ice of a Rocky Mountain fourteener... That's what thrill-seeker Kaye Trilby believed, until a deadly avalanche almost swept her from the face of the earth. Now, tackling life and love with her ex-husband isn't as traumatic as scaling the mountains she once longed for. Or is it? Kaye has loved the brilliant and guarded Samuel Cabral since childhood and, at last, he's allowed her behind his carefully-cultivated veneer. But so much has changed in the years they lived apart, Kaye worries she may never fully know him. Why is Samuel firmly against becoming a father? Who is this mysterious woman in Mexico, and why is she a secret? While Samuel chases ghosts through the lush hills of Tamaulipas, Kaye chases the woman she once was, up the peaks of Colorado's gleaming fourteeners. In the end, is it possible Kaye and Samuel are chasing separate futures? With this life-affirming and personal novel, Sarah Latchaw returns with a stunning, multifaceted conclusion to her Hydraulic series. Fourteeners is a grown-up story of first love and second chances.
