Highly Commended in Internal medicine in the 2017 BMA Medical Book Awards Highly illustrated, comprehensive, and accessible, Ophthalmology Lecture Notes is the ideal reference and revision guide to common eye problems and their diagnosis and management. Beginning with overviews of anatomy, history taking, and examination, it then covers a range of core ophthalmic conditions, including a new chapter on paediatric ophthalmology. The content has been thoroughly updated and includes: Over 200 diagrams and photographs A range of core clinical cases in chapter 20 demonstrating the clinical context of key conditions Learning objectives and summary of key points in each chapter Ophthalmology Lecture Notes is perfect for developing knowledge for clinical practice or revision in the run-up to examinations, and uses a systematic approach to provide medical students and junior doctors with all the tools they need to manage clinical situations. It is also useful for optometrists in training, helping them develop a sound understanding of clinical ophthalmology.

Paediatrics Lecture Notes provides the information central to a thorough understanding of the care of children in clinical practice, drawing out key concepts in areas such as examination, communication and emergency paediatrics, in addition to systematically structured clinical topics. Incorporating brand new and updated material to reflect advances in various areas of child and adolescent health, such as genetics, behavioural and emotional problems and seizures, this edition is also ideal for exam preparation. Key learning features include: • Ready-made revision lists, OSCE stations and practice EMQs • New 'icon' system highlighting essential clinical topics throughout • Helpful key points and treatment boxes in every chapter • A new 'Symptom Sorter', available at [www.lecturenoteseries.com/paediatrics](http://www.lecturenoteseries.com/paediatrics), to help quickly determine which conditions should feature in your differential diagnoses An ideal resource for those encountering this area of study for the first time, on paediatric rotation, or needing to refresh their knowledge, Paediatrics Lecture Notes presents the vital information in one accessible and user friendly volume.

The only set on the market that offers a comprehensive yet concise review of USMLE Step 2 CK exam topics. Includes: Internal Medicine Pediatrics Obstetrics/Gynecology Surgery Psychiatry/Epidemiology/Patient Safety The best review from the same team that releases USMLE Step 1 Lecture Notes Revised every year by Kaplan's all-star, expert faculty 450+ color images similar to those on the exam Structured format calling out high-yield topics in context Bridges between specialties and basic science

The new edition of Diseases of the Ear, Nose and Throat Lecture Notes provides an updated and comprehensive overview of one of the fastest growing specialties in medicine. New features include: • A revamped layout and structure comprising four sections: The ear, hearing and balance, The nose and sinuses, The head and neck and ENT emergencies • Additional content including facial plastic surgery, emergencies and maxillofacial trauma, and 50 brand new illustrations and images • Treatment and management now highlighted for quick reference The brand new companion website at [www.lecturenoteseries.com/ENT](http://www.lecturenoteseries.com/ENT) features over 100 Multiple Choice Questions (MCQs), key revision points, and links to further online resources. Diseases of the Ear, Nose and Throat Lecture Notes is ideal for the busy medical student new to this area or as a useful review and revision aid later in their course.

### Text and Essentials of Surgical Specialties, Second Edition Package
