Word Problem Practice includes additional practice in solving word problems that apply the concepts of the lesson.

Word Problem Practice includes additional practice in solving word problems that apply the concepts of the lesson.

Includes: Print Student Edition

Softbound Interactive Student Text is divided into a two-volume set that is perforated and 3-hole punched for easy organization for middle school students. This is volume 1.

"The third of a three-year sequence of courses designed to prepare students for a rigorous college preparatory algebra course. It uses a problem-based approach with concrete models. The course helps students to develop multiple strategies to solve problems and to recognize the connections between concepts" -- publisher's website.

Math Connects: Concepts, Skills, and Problem Solving was written by the authorship team with the end results in mind. They looked at the content needed to be successful in Geometry and Algebra and backmapped the development of mathematical content, concepts, and procedures to PreK to ensure a solid foundation and seamless transition from grade level to grade level. The series is organized around the new NCTM Focal Points and is designed to meet most state standards. Math Connects focuses on three key areas of vocabulary to build mathematical literacy, intervention options aligned to RtI, and a comprehensive assessment system of diagnostic, formative, and summative assessments.
