A memoir of the author's life and career as a member of the Green Bay Packers

The Native American activist recounts his struggle for Indian self-determination, his periods in prison, and his spiritual awakening

The wife of the American poet George Oppen tells of their experiences traveling throughout America and of their associations with the Communist Party.

THE SUNDAY TIMES BESTSELLER 'Wright's characteristic honesty means his book is far more engrossing than most bland football memoirs' Sunday Times Ian Wright, Arsenal legend. England striker and TV pundit extraordinaire. is one of the most interesting and relevant figures in modern football. His journey from a South London council estate to national treasure is everybody's dream. From Sunday morning football directly to Crystal Palace; from 'boring, boring Arsenal' to inside the Wenger Revolution; from Saturday afternoons on the pitch to Saturday evenings on primetime television, from a week in prison to inspiring youth offenders, Ian will reveal all about his extraordinary life and career. Ian will also frankly discuss how retirement affects footballers, why George Graham deserves a statue, social media, why music matters, breaking Arsenal's goal-scoring record, racism, the unadulterated joy of playing alongside Dennis Bergkamp and, of course, what he thinks of Tottenham. Not a standard footballer's autobiography, Ian Wright's memoir is a thoughtful and gripping insight into a Highbury Hero and one of the greatest sports stars of recent years.

Writing autobiography is a complicated, often fraught activity for both writer and reader. We can find many recent examples of the way such writing calls into question the author's truthfulness or their authority to present as definitive their 'version' of a particular event or portion of their lives. Drawing upon a wide range of late twentieth and early twenty-first-century autobiographical writing, The Fiction of Autobiography examines key aspects of autobiography from the interrelated perspectives of author, reader, critic and scholar, to reconsider how we view this form of writing, and its relationship to the way we understand and construct identity. Maftei considers recent cases and texts such as Didion's The Year of Magical Thinking and Frey's A Million Little Pieces alongside older texts such as Proust's In Search of Lost Time Nabokov's Speak, Memory and Stein's The Autobiography of Alice B. Toklas. In part, this is to emphasise that key issues reappear and arise over decades and centuries, and that texts distanced by time can speak to each other thoughtfully and poignantly.

SUNDAY TIMES #1 BESTSELLER For the first time EVER, global superstars One Direction are releasing their 100% official autobiography, offering a new, intimate insight into their lives as never before seen or heard!

The Autobiography of Malcolm X was intended to be a true autobiography, with the name of Alex Haley appearing not at all or as a ghost writer or as a mere contributor or assistant. However, with the assassination of Malcolm X having occurred in Harlem in New York City on February 21, 1965 just before this book could be published, it became necessary to reveal the important role of Alex Haley in creating this book.

Absolutely incredible, and brutally honest, this amazing story recounts the adventures of a British SAS soldier turned mercenary. McAleese fought in some of the world's most dangerous places, from Aden to Rhodesia (against the guerrillas of Zania), and he nearly lost his life trying to assassinate Colombian drug baron Pablo Escobar. Always in search of the "intense high" of battle, for 25 years he saw almost constant combat...putting him in a unique position to reveal the harsh realities of modern warfare.

From the Academy Award® – winning actor, an unconventional memoir filled with raucous stories, outlaw wisdom, and lessons learned the hard way about living with greater satisfaction “ Unflinchingly honest and remarkably candid, Matthew McConaughey ’ s book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand. ” —Mark Manson, author of The Subtle Art of Not Giving a F*ck I ’ ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life ’ s challenges—how to get relative with the inevitable—you can enjoy a state of success I call “ catching greenlights. ” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it ’ s medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot ’ s license, going to church without having to be born again, and laughing through the tears. It ’ s a love letter. To life. It ’ s also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.
