This manual was written for law enforcement and security officers who may be interested in the use of the Mini-Baton. The Mini-Baton can include any type of short stick such as the Yawara stick, Persuader Baton Kubatons, Tactical Pens and other short stick like object. Topics in this manual include: History of the short stick or Mini-Baton Basic principles of the Mini-Baton Stance and balance Basic gripping Basic blocking Basic striking Wrist control and takedown techniques How use the Mini-Baton for basic self-defense Basic teaching principles There is also a sample course outline for those who are interested following an organized program of learning this effective and practical self-defense and control tool.

The PR-24 police baton helps to

bridge the wide gap between the final force of the firearm and the ineffective or abusive use of the conventional police baton. Used properly, this new baton can defend without destroying, control without crushing. This training manual provides instructions for using this new baton. The objective of this manual is to provide instruction for as many instinctive techniques as the average law enforcement officer will need in order to defend himself and to neutralize an adversary in any given situation which calls for something less than the use of a firearm.

This book will show you how a simple writing tool can easily be turned into an effective self-defense weapon with just a little knowledge, practice, determination and imagination. This is to my knowledge, the first manual ever

written that deals primarily with the use of the pen as a self-protection tool. Some of the areas this book will cover include choosing the best pen for self-defense, carrying methods, how to grip the pen for most effectiveness, the right to self-defense and the law, vulnerable areas of the body and specific techniques and tactics to use the pen for self-defense. When you finish this text, you will be more aware and confident in your ability to defend yourself using a simple pen or pencil. The key to defending yourself must always begin with the realization that your own body has numerous areas that can be used as a self-defense tool.

This is a manual will be of interest to not only all Law Enforcement Defensive Tactics Instructors, but to

File Type PDF Monadnock Baton Training Manual

anyone in the law enforcement field who is concerned about the facts and fallacies floating around this field. The following are just a sample of the questions this basic guide will answer: Is law enforcement defensive tactics a science Do the techniques and tactics you were taught always work on the street What is reality based training as it applies to defensive tactics Is there any formal martial art which is perfect for police officers Should officers be taught striking techniques Is the PR-24 Police Baton just a Tonfa Is training once a year sufficient to remain competent in defensive tactics"

The straight stick has probably been used as a self-defense tool since a human made the first footprints on earth. Through the ages variations of the stick and staff have been created

to make a better self-defense tool. The straight stick was turned into spears and swords. Understanding the basic use of the straight police baton makes it possible to use numerous other objects for self-defense. In fact, the same techniques taught for using the police baton relate to a host of stick fighting and sword arts such as Hanbo- Jutsu, Jo-Jutsu, Wakizashi-Jutsu and similar weapon combat systems. It is hoped this book will provide a basic overview of the many ways a straight baton can be used for self-defense, control and takedowns for law enforcement, security officers and martial artists studying weapons.

This baton manual takes a different approach on how to employ the standard straight police baton. Whether you carry the expandable

type of baton or the standard rigid model, this text will provide a different perspective on how to use the baton for control and self defense. The Baton Reverse Grip System (BRGS) was not created to take the place of any other baton system. It was designated to increase an officer's options when employing the law enforcement straight baton in arrest and control situations.
