A fast-paced, journalistic account of tragedy turned to triumph, despair to hope, Cobalt Cover-Up is an inspirational, thoroughly compelling, and victorious read. In the midst of his own family struggles, small-town Georgia lawyer Lance Cooper agreed to defend Ken and Beth Melton and investigate the deadly accident that killed their daughter Brooke after she inexplicably lost control of her Chevy Cobalt. But what started as a heartbreaking yet all too common lawsuit quickly escalated into a David vs. Goliath case when Cooper discovered shocking evidence that General Motors concealed an ignition switch defect for nearly a decade--resulting in 124 deaths, including Brooke's, and risking the lives of millions more. Despite GM's settlement offers and attempts to bury evidence, Cooper refused to back down and worked tirelessly to expose the truth. Locked in a tenacious legal fight, Cooper and the Meltons faced incredible odds--Ken and Beth losing jobs and suffering the difficulty of grieving a beloved daughter during a court battle, Cooper risking his reputation and private practice against the overwhelming opposition from GM's team of lawyers, and both parties facing massive financial strain. Yet, in the relentless pursuit for justice and to protect future innocent lives, this small-town lawyer and a working-class American couple stared down the biggest US auto manufacturing mogul and ultimately transformed the entire industry.
